SKILLS

- **Web Development:** HTML, CSS, JavaScript, React, Node.js, Express.js, EJS
- **UI/UX Design:** Figma, GSAP (Animations)
- **Database:** MySQL, SQLite3
- **Version Control:** Git, GitHub
- **Programming Languages:** C, C++, Java, Python
- **Machine Learning** (In Progress): NumPy, Pandas, Matplotlib, Seaborn, Linear Regression

LANGUAGES

- English (Fluent), Hindi

PROFILE

Aspiring Frontend Developer & UI/UX Designer with a passion for crafting engaging user experiences. Skilled in web technologies, problem-solving, and design. Currently enhancing frontend designs while expanding backend expertise.

PROJECTS

- **Music App:** Developed an offline music streaming web app with a Spotify-like UI using HTML, CSS, and JavaScript.
- **COVID-19 Data Visualization:** Created interactive data visualizations and presented insights as part of a research-driven team project.
- **Coca-Cola Reimagined Website:** Built a vibrant ReactJS website with engaging animations and user interactivity.
- **Real-Time Energy Usage Monitoring System:** Developed a smart home energy-tracking system during HackElite'24 hackathon at JSS, Mysuru.

CERTIFICATES & COURSES

- Problem Solving Using Computational Thinking (Coursera)
- Machine Learning (Data Preprocessing, Linear Regression - Self-learning)
- ReactJS Bootcamp (Let's Upgrade)

EDUCATION

The National Institute of Engineering, Mysuru | Joined 2023

B.E. in Computer Science & Engineering

Expected Graduation 2027

- Operating Systems, Django, Data Structures & Algorithms

Kendriya Vidyalaya COD chheoki, Prayagraj

(Central Board of Secondary Education)

Class 10th | 2019 - 2020

Class 12th | 2021 - 2022
